

# 2014 Kansas: UNNAMED

ks3926809686320140222

Latitude: 39° 16' 12.0"  
Longitude: -96° 51' 54.0"  
Fire Ignition Date: February 22, 2014  
Assessment Type: Initial  
Pre-Fire Image Date: January 13, 2014 (Landsat 8)  
Post-Fire Image Date: February 22, 2014 (Landsat 7)

This map portrays fire severity for the fire specified in the map title and summarizes proportions of fire severity classes. These data are produced under the Monitoring Trends in Burn Severity (MTBS) project jointly implemented by the USGS EROS and the USFS RSAC. The MTBS project ascertains the locations of fires based on available fire occurrence information provided by federal and state agencies, and other reliable sources. The MTBS project reserves the right to correct, update or modify geospatial inputs to this map without notification.

\* Areas in either the pre-fire or post-fire reflectance imagery containing clouds, snow, shadows, smoke, significantly sized water bodies, missing lines of image data, etc.
